

**25 New Fellowships!**

- ▶ Online application available now
- ▶ Application Deadline April 9, 2010
- ▶ Notification of Award May 15, 2010

## **Hydro Fellowship Program [www.hydrofoundation.org](http://www.hydrofoundation.org)**

The U.S. Department of Energy has awarded a 3-year, \$3 million grant to the Hydro Research Foundation. Fellowships will begin as early as June 2010 and will continue for two academic years. Approximately 25 fellowships will be awarded and will include an honorarium for the student's professor, a living stipend, a tuition allowance, an allowance for university-provided health, insurance and payment for the Fellow's attendance at the three Hydro Fellows Roundtables. Students who are American citizens and who will complete their Master's by June 2012 or their Doctorate degree by June 2013 are eligible to apply. Applications will be accepted from students who will be conducting research directly related to hydropower in the fields of engineering, environmental and biologic science, or regulatory/economics. The goal of the fellowships is to attract graduate level students to the hydropower industry . Each Fellow will be paired with an industry mentor. **Information about the program and on-line application materials are available at [www.hydrofoundation.org](http://www.hydrofoundation.org)**

- ▶ Up to \$26,000 Living Stipend
- ▶ \$ 2,000 Annual Honorarium for Professor Supervising Fellow's Work
- ▶ Up to \$16,900 allowance for tuition & university-sponsored health insurance
- ▶ Attendance at 3 Hydro Fellows Roundtables
