Hydropower Foundation announces the *Julie Keil Scholarship for Women in Hydropower is now accepting applications*

The Julie A. Keil Women in Hydro Scholarship fund seeks to honor Julie and her legacy by supporting women who aspire to a career in hydropower and share her characteristics: leadership, energy, courage, strength, enthusiasm and persistence.

The Julie A. Keil Women in Hydro Scholarship provides support for women enrolled in an accredited college, university or technical school program majoring in a discipline relevant to entering the hydropower industry. The scholarship will be based on merit and financial need. Grants will also be made to women to assist in expenses to attend industry events.

The Hydropower Foundation is now accepting applications for the Julie Keil Scholarship for women in hydropower. Applications are due by March 15, 2019 and can be accessed at www.nwhydro.org/events-committees.

Leslie Eden, past president of the Hydropower Foundation stated, "Providing financial assistance to support and encourage women's entry into the hydropower industry is something I think Julie would have really appreciated."

The scholarship will be presented to the recipient at the July 25 luncheon for "Women with HydroVision" at the HydroVision International Conference in Oregon.

Information on future scholarships for women entering the hydropower field is available at [Julie Keil Women in Hydro Scholarship](#).
